

Submitter: Sue Craig

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: SB543

This is so important as a further way to help our landfills, our earth, and indeed our future. Please support this bill as it will help with Oregon's desire to cut carbon emissions in several ways. I was amazed to go to dinner at a well known restaurant and was given a polystyrene container. I usually bring my own....so bad me for not doing so. But this was a surprise. Thanks you all for looking at what is coming in the future....and is on us now with all the problems that we cause. Sue Craig
