

Submitter: David Klaus
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: HB2279

Oregon is now nationally known for all the wrong reasons, and this will only add to them. Apart from our scenic beauty and abundant natural resources, we are now known more for the following:

1. Top five states in homelessness
2. In the top five highest taxed states.
3. One of the least business friendly states in the nation.
4. A state that more people want to move out of than move too.
5. Abortion up to the point of birth.
6. Legalization of hard Street drugs.
7. It's most populous city, formerly a thriving metropolis of business and tourism, now reduced to a destination that businesses flee from and even locals avoid.

And now, you want to allow people from out of state to come here to committ suicide. The Democrat plan for Oregon could be exchanged for Albert Einstein's definition of insanity. Stop destroying our state!

Sincerely,

David Klaus
