

Submitter: Anne OBrien  
On Behalf Of: Church Women United of Lane County  
Committee: Senate Committee On Rules  
Measure: SB1089

Church Women United of Lane County is one unit of an 81-year old national movement of women working on many social justice issues. We are a long-standing coalition member of Health Care for All Oregon. We believe this bill is the next necessary step for Oregon to make health care available to all residents and save money in the process.

In particular, by passing this bill, the legislature would begin to meet its requirement to fulfill the direction of the voters in passing Measure 111. How else would the legislature move toward doing so, if not following the recommendations of the UHC Task Force? Please pass this bill.

Anne OBrien,  
President of Church Women United of Lane County
