

Submitter: Lucy Naftalin

On Behalf Of: Cascades Academy

Committee: House Committee On Climate, Energy, and Environment

Measure: SB543

Dear, House of Representatives.

I am writing to you because of the big problem styrofoam is causing our planet. Not only does it get into our ocean and animals, but It also takes forever to decompose and If we keep using it, It could get into our systems because the fish and animals are eating it. Please! take into consideration this big ongoing problem that we could quickly fix now, and not have to worry about it later.

Sincerely,

Lucy Naftalin
