On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB2395

While not a citizen in the state of Oregon, I am a citizen who has been worried about the opioid crisis in America for years. I support any and all measures that have the potential to save lives, and the idea of defining such a thing as a form of "drug paraphernalia" even while held by someone who is trained to use it when it can be used to save lives is overly punishing.
