

Submitter: Dan Cox

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

From my perspective as a fifth generation Oregonian, it is clear to me that OSFEC is much more than the home to one of America's classic state fairs. It is the singular physical entity connecting all Oregon communities to their past, present and future; which is why it is vital that legislators approve OSFEC'S 2023-2025 biennium request, understanding that failure to adequately address such essential capital improvements is to doom this Oregon treasure to an embarrassing end.
