I Oppose [SB 5]. All corporate "research" should receive the corporate excise tax credit or none shall receive it.

****Is Oregon giving one select group preferential treatment instead of treating everyone equal under the law?**

**Oregon's Legislature must obey, "The 14th Amendment to the Constitution of the United States of America."

On a related matter, ask yourselves, "Why hasn't Intel invested more money into making semiconductors and or for conducting research in Oregon?" Does Oregon produce a highly educated workforce to justify significant investments for future research and product development? Intel is reducing its' workforce in California. Intel Oregon is downsizing too.

Are additional related semiconductor businesses also leaving Oregon?

The articles below may shed some light on the mystery.

<https://www.oregonlive.com/silicon-forest/2023/02/intel-slashes-wages-bonuses-after-disastrous-quarterly-results.html#:~:text=Intel%20hasn't%20disclosed%20how,data%20center%20operators%20during%202022.>

Is the, "Restoration of the corporate excise tax credit" a juicy enticement for Intel (and other semiconductor industries) to reconsider their systematic withdrawal from the: drug, crime, Homeless infested state of Oregon, where children are indoctrinated to accept Marxist ideologies, Critical Race Theory, The 1619 Project and encouraged to pursue surgical sex-change alterations to their bodies? Will these children excel in: Science, Technology, Engineering and Mathematics?

*Are you not satisfied with the aforementioned reasons for non-investment in critical semiconductor research?

***Maybe the reason is the piss-poor management of taxpayer dollars with budget allocations to the issues below:

→What is the Housing and Community Services Department's total debt as of [04.20.23]?

→The Debt Service alone is [**\$155,800,792.00**] allocated from this session's GENERAL FUND.

...And...

The Legislature wants to issue more bonds.

Add up the bonding amounts dedicated for the Housing and Community Services Department in [HB 5005 (2023)].
