

Submitter: Richard Hughes

On Behalf Of:

Committee: House Committee On Judiciary

Measure: SB895

I fully support SB 895 as it will require motor vehicles to slow down before passing a person on a bicycle or an operator of farm equipment, thus reducing the chances of a crash, while passing them. Also it allows the passing in a no passing zone when it is safe to do so. This is merely common sense, hopefully to become law.
