

Submitter: Michael Mosee

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB2395

HB 2395 is a well meaning piece of legislation that has two bad provisions.

It calls for disregarding drug paraphernalia laws & does not demand the overdosed person submit to drug counseling to prevent a repeat scenario.

The bill also says the government can interfere in the family structure by disallowing information to be supplied to the parents of minors.

Please make those corrections to this bill

Sincerely,

Michael Mosee
