Measure: HB3501

I support funding to house the homeless. I also support centralized camps but not camping wherever you want. I do not support the right to camp on public spaces. The problems is that then people can't use the public spaces. One example is the 205 bike trail. It is not safe to use. We are a community that has to live together. The homeless are impacting the rights of others. I am all for compassion but it has to be compassion for all citizens. We need to improve our mental health and drug addiction services.
