

Submitter: Colton Vermillion

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This bill is the equivalent of pouring gasoline on a fire with the current state of Oregon. It provides no resources while reinforcing a practice that is far more dangerous than shelters. Public property cannot function dually as private property for some and not for others. Additionally the environmental impacts of reinforcing tent camping in public spaces are too numerous to count. Please oppose this bill and work on logical legislation to house our houseless neighbors while preserving and protecting Oregon's cherished public spaces.
