

Submitter: John Lussier

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Oregon residents deserve help. Our state needs to move away from a rights based approach to shelter lessness, and a care/duty based one. We're serving no one by turning public space into private space. Let's stop pretending these types of initiatives will help. Housing first approaches, data centric decision making, on the ground, local care, putting our money where are mouth is can change this. A faux right to claim public land as private isn't a solution.
