Public spaces should remain that and not be given to Sooners whi simply show up for free.

Of course no one desires others to be without a home or safe place to "rest." The places to rest should not be those belonging to us all. Depriving us of use of those areas. Making needle sticks an ever present danger for those who would walk there. Increasing sanitation, security, and labor costs of municipalities.

As we told to always provide an alternative, how about opening the yard space of the Governor's mansion, the capital lawns and entry ways, as well as the yard space of all those pomoting this bill? Sound absurd? It is no more ridiculous than allowing premium space in our towns to become camp-sites.
