On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This is not the solution to the houseless crisis. This crisis has become a social and environmental disaster. Current camping in public spaces is not sustainable; businesses are failing, general public is afraid to access public spaces, crime has increased, etc. How would this bill not make the situation worse? How much would this cost the taxpayers? Please look at other solutions such as sanctioned camping sites, health services etc. Camping on public property needs to remain illegal and enforced.
