Committee: House Committee On Housing and Homelessness

Measure: HB3501

Please do not pass this bill. Further empowering people to camp wherever they please will not help solve our tragic humanitarian crisis. It will only serve to enable the worst actors and inflame tensions within the community. Please focus our government's efforts on wisely spending the tax dollars the voting population has allocated for this issue. Allowing people to live in squalor is not kindness and will only lead to the further destruction of our natural areas as well as the livability of our communities.
