Measure: HB3501

We've been a Portland resident since 1985. Over the years, we have fully supported Metro's initiatives to acquire public space for parks and green spaces. I fully understand the need for affordable public housing and services for those individuals suffering homelessness. I feel this bill goes too far in protecting the rights for homeless camping. There are already protections in place that are sufficient. I feel our rights to safely use the public spaces we have helped create are not being equally protected. I urge you to oppose this bill. Thank you.
