

Submitter: Robin Lee

On Behalf Of: myself

Committee: House Committee On Early Childhood and Human Services

Measure: SB574

I oppose on the basis of 'declaring an emergency'. It is not. Overuse of 'declaring an emergency' limits the rights of all citizens to have a say about laws passed.

I also want to point out that when I checked, just now, the first of four testimonies is shown as supporting the bill and indeed the writer said she approves. I note her submission was over two months ago. Has the wording of SB 574 changed in the interim? Because the balance of her statement reads, "DON'T SPEND . . ."

Please do not pass this bill. Thank you.
