

Submitter: Robin Lee
On Behalf Of: myself and my community
Committee: House Committee On Education
Measure: SB767

I opposed the first version and write now to say I vehemently oppose this iteration. It changes very little. It is poorly written. The outline form alone shows an unfamiliarity with traditional format, and the if/then paragraphs and sentences are convoluted and misleading. Scrap this whole _ _ _ _ thing. SB 767-A is as much a disaster as the original bill. It strips parents of finding education options that will best fit their children if the local school system is failing in their view. We all pay taxes for schools. Do not silence our voices. Do not pass this or any other iteration of SB 767
