Measure: HB3501

We need to fix the housing crisis. Allowing people to camp where ever they want is not the answer. They need clear places to go get help, housing. We've been dealing with this for YEARS and it really isn't getting better. Decriminalizing this behavior is not making it better. You can't deny legalizing drugs and allowing people to live where ever they want has not worked. It's making tax payers feel like they are paying more for less.
