

Submitter: Amanda Case

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This bill shows that our leaders don't care about the citizens of this state. Enabling more tents and encampment is not humane or the 'right' thing to do. This is only escalating the problems and making areas more unsafe for people. Help get people the addiction and mental health services they need to get OFF of the street and stop making it easier to live that way. It is appalling that anyone would think it is okay to allow encampments to set up in public spaces without any time restrictions and then to be able to SUE when people tell you to leave. What are you thinking!?! This will not help people get into safe spaces or off the streets. It's getting harder every day to want to stay in Oregon. I used to love this state but it seems like the leaders here just want to turn us into a third world state. Look at Portland. I don't know anyone that wants to go there anymore because of the tents everywhere and now you want to make the whole state that way. It's absolutely mind boggling.
