Measure: HB3501

I vigorously oppose the Right to Rest bill. NO MORE. How about the Right to live in a clean and safe city that last time I checked I pay plenty of taxes for. I voted yes to Multnomah County's houseless tax (which i regret in spades) only to see very little being done to make living in Portland feasible for ALL. How is it that my rights don't matter anymore. I have time and time again voted yes to helping others but given the state of our state, this is absolutely not the answer and I'm fed up. I'm a hard working, high income earning, taxy paying citizen of this state and my compassion well is drying up. If this is your answer to solving the problem, remind me to not vote for you next election. We are smarter and better than this. Allowing folks to continue to trash our neighborhoods, parks, sidewalks, and open space is the farthest thing from the answer.

I'm pretty certain every public poll taken has reflected that people are FED UP with how terrible things have gotten in our once beautiful city.

Do better.

Sincerely,
Emily
