

Submitter: Mary Chalkiopoulos

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3550

I ABSOLUTELY OPPOSE HB 3550!

There is no rational reason to try to force the purchase and use of more expensive electric vehicles on the taxpayer dollar. Also, as a lifelong Oregonian who appreciates the environment, I rue the day when the environmental disaster associated with the development and deconstruction of the batteries used in these vehicles becomes so bad that the legislature will have no choice but to ban their use.
