

Submitter: Mary Crandall
On Behalf Of:
Committee: House Committee On Education
Measure: SB767

After having experience with this directly in our district, I would recommend that this bill be passed to ensure that school districts are not at odds with one another. The law, as it stands now, allows one district to invade another district without consent to resurrect and open a charter school. For our district, it could put us at odds with our neighboring districts, which we rely on for sharing of resources and help in our small district and vice versa.

Please pass this bill to help maintain a more cohesive regional relationship within our educational region.

Thank you
Mary Anne Crandall
Pinehurst School Board Chair
