Measure: HB3501

This proposal does not help. The “reasonable, expectation of privacy” in a public space is an oxymoron. By very definition it’s a public space, not private. Not enforcing camping rules on public property will ignite a land grab— first come first serve. This will invite even more homeless individuals into our community. Until those members of the homeless population who are there by choice can be separated from those who are forced, measures such as hb 3501 will exasperate her current problems, not help them.
