Measure: HB3501

This does nothing to solve the problem. If anything, the right to rest should be restricted to non-public areas where the homeless cannot be a threat to children or a burden to businesses, the disabled, local residents etc. Way too much focus on the extreme minority of drug addicts and those with mental disabilities, not enough on the impact these policies have on the rest of the 99% of the population.

I'll vote against anyone who supports this bill.
