

Submitter: Tobias Forsberg

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

When 85% of Portlanders and probably more Oregonians support cleaning up our city streets and banning camping in public places, I believe this is a terrible idea enabling and endangering homeless and addicted people and delaying our economic recovery. With an impending recession and digging our way out of the pandemic, this would only detract from our economic progress. Furthermore, this would create more environmental damage and drug trade/use and the crime that follows it. While other communities are having progress, ours is barely visible. Please oppose this bill, as your political career probably depends on it.
