

Submitter: A B

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I severely oppose this bill as it will damage and jepordize homeowners rights on their own property. What companies will be able to provide and protect the members of the community that can no longer can feel safe in their own homes. Certainly there will be risks of increased drug and alcohol use, increased risks of disease transmission. Essentially we will become San Francisco where the homeless live freely on the streets and the public and businesses deal with human feces left on the streets along with drug paraphernalia! Additionally what currently employed person couldn't us \$1000/month! Please come up with a solution that makes sense for all. How is it that the homeless are given more rights than the working productive part of a city?? What incentive does this give for people to strive for better, or our youth to become contributors to society? I oppose this HB3501.
