

Submitter: Nathan Lyon

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I understand the sympathy behind this bill but like anything the government tries to fix it will not solve the problem. It will make public places in large and small towns unusable to the public and put a financial burden on local government. As statistics show mental illness is a big cause in homelessness and we need places people can get help not a place they can camp for the night.
