Measure: SB406

As a community member living on the Oregon Coast, I have seen individuals and families struggle to find affordable housing. As a professional working for a university, I work directly with community organizations who continue to struggle to fill and sustain positions on the Oregon Coast, especially in Tillamook County, as a result of lack of housing availability and cost of housing. With minimal housing opportunities, this also reduces economic viability in Tillamook, hurting the community, overall. I am supporting measure SB406 to improve the availability of housing for families, in order to continue building a thriving community for Oregonians to live in. Thank you.
