

Submitter: Dan Walter

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

We all pay for public space and should all be able to access that space as it is intended. A city without rules is not part of society. Decriminalization of "public camping" (living in the streets) provide no solutions and no positives for anyone involved. It does not help fix the homeless problem. It does not keep our city clean and livable. It does not help local business stay in business. It does not cut down the accessibility to drugs and other criminal endeavors. It does not make anyone's life better. This is a cruel ploy by so called "homeless activists" who do not care about fixing the problems they thrive on. I am a life long democrat who absolutely opposes this bill.
