To: Senate Committee on Rules

From: Daniel & Heidi Brown, concerned citizens of Oregon

Re: Opposition to Senate Joint Resolution 33, specifically its intent to include abortion as a right

Chair Lieber, Vice-Chair Knopp, and Members of the Committee:

It is with great sadness that we recently learned of the verbiage of Senate Joint Resolution 33.

We urge you to strongly oppose this resolution. The act of killing a child at any stage of life is unthinkable, but allowing the killing of a baby moments before his or her birth is nothing short of barbaric. We live in a great nation, a nation where the right to life is called out in our Declaration of Independence. Unfortunately, that right to life has been under attack for years. SJR 33 further removes that right from the most vulnerable! Our hope is that you, our elected senators, will choose to honor the gift of life and seek to preserve, protect, and cherish life at all stages.

Respectfully,

Daniel & Heidi Brown
