

Submitter: Karen Sjogren

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: HB3213

Please support this bill and send it to the Senate for a floor vote. It would prohibit cosmetics and toiletries from being sold in Oregon which have been tested on animals for safe use by consumers. As a consumer, I want to be assured that the products I buy have not been tested on animals, which is cruel, inhumane, and unnecessary. There are other means to test new products which do not require animal testing. This law would put us in harmony with several other states which have prohibited products where animals have been used for testing with no inconvenience to consumers or economic hardship to businesses that sell such products. Thank you.
