Measure: Support SB 579, Guaranteeing the Right to Vote

Next up,

3-26-23

- 1) Have you voted in the past? I have not because I've never felt welcome due to the stigma.
- 2) Do you support this legislation? Yes
- 3) What would it mean to you to be able to vote in prison? I would finally feel like an American and to become part of change.
- 4) Why does voting matter to you? I believe when a person is given the chance to matter than they take a personal interest in their community.
- 5) What would it mean to you to be able to vote right now? It would mean the world to me.
- 6) If you could tell the legislature something, what would you tell them?  
A big step in Criminal Justice reform starts with the personal growth of the Criminal, allowing them to belong leads them to the side of justice.
