3/23/23

Hello,

I am writing to you in regards to the legislation to award adults in custody the right to vote. I support and appreciate such legislation.

I am 48 years old and have never voted. Being labeled a felon since I was barely out of my teens, 1994, I never figured any one wanted my vote.

It would mean alot to me to be able to vote while in prison.

It would mean that our nation hasn't totally given up on me and that I still count for something.

If I could tell legislation anything right now I would say to please pass this into existence, to be looked at as voting members of society, would mean alot to me and alot of other guys in here. Its definity an incentive to want to change and keep our heads up.
Thank you, sincerely
Sherman Plale
