

Submitter: Joshua Chavez

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SJR33

I support to add examples of equal rights especially for my wife and I as we are an interracial couple. I shouldn't have to be afraid to be married to the love of my life and neither should my gay, bi, trans, and non binary friends in this great state. I also support the right to choose for any individual to choose forms of contraception that work for them. Please place this on the ballot for 2024 to make sure all Oregonians are protected and have the right to love who they want to love.
