Measure: HB3501

This is just one more ill-conceived bill to address homelessness. This bill appears to do nothing to address the real causes of homelessness. If this passes I suspect Oregon will draw many more people from out of state. And why not, no criminal penalties for drug possession, free handouts and no accountability, while people who actually work for a living have taxes continue to increase. One question, when the homeless begin camping in public parks and open spaces, where I'm I suppose to take my grandchildren. If this passes the enabling behavior of our politicians continues.
