

Submitter: David Lavier

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Please don't pass this bill as I perceive the context of this would restrict access to public right of ways. Accessing public sidewalks should be available for use as a means of movement as the name sidewalk implies. You will really strain the businesses already stressed to remain in the cities dealing with a high homeless population also the people with mobility issues trying to function in using public access to maneuver through a city. When given the freedom to rest anywhere you take away the freedom of public use of this space, alter its purpose and dismiss the expense for being built in the first place, and degrade the extensive improvements to make sidewalks ADA compliant.
