

Submitter: Sharyn Thomas

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SJR33

I agree with making amendment of State Constitution to protect access to abortion, and gender affirming care, and marriage for all. The political views of many states in USA are going back on what I believe should be human rights of the State of Oregon. We practice most if not all of this now, but putting in as a decree in our state constitution is important.
