Measure: HB3501

This bill will destroy Portland further. Houseless people do not need even more rights. We should have a right to move people from neighborhoods and public property especially when there are safety concerns for residents in homes. Our city is already much much too friendly to houseless people enabling the problem to get worse and worse, and we are never going to make this city safer for everyone if we just allow homeless people to do whatever they want wherever they want. This bill is absolutely over the top in a terrible way.
