

Submitter: Lisa Johnson

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This will not solve the problem of homelessness. Rather, it will create continued unhealthy living situations for people who need assistance. It will also create a public health hazard and create a lot of stress and frustration for citizens who want to use the public spaces as intended. We pay an extraordinarily high amount of taxes in this state and have a right to expect to use our public spaces as our tax dollars support them. Please fix the problem of homelessness and don't perpetuated by keeping people on the street.
