Measure: SJR33

I'm writing to share my whole-hearted support for SJR-33. I'm dismayed at the recent repeal of basic human rights around the country, and am proud to be an Oregonian now more than ever. Adding these basic human and civil rights into our State's Constitution would buoy feelings of safety and security for so many people in Oregon who have been unlawfully targeted by bigotry and discrimination. I urge you to add the right to abortion, same-sex marriage and gender-affirming care into the state's Constitution.
