Measure: HB3501

I am opposed to bill HB3501 because it will only allow the homeless to take over our town and make families and children not feel safe. Today for instance I was unloading both of my young children at the grocery store when I was approached by a homeless male asking for money. I was then again approached by another homeless man while loading my children into my car. This made me feel vulnerable and scared for myself and my children because these two men noticed a woman alone with two children knowing very well they could have taken advantage of myself and robbed or hurt me. I should not feel scared to go out in public alone with my two kids. This town has become the new Portland and Seattle and before we know it worse.
