

Submitter: Kelly Bott

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Hello on the Bill concerning Right to rest.

Not sure how making it a law to allow for folks to camp on City, County State Public land with out a Fee and or trespass Ruling is valid ?

We seem to be loosing the point of having a system where people are held accountable for their choices in Life. Good bad or sad.

Creating a law that just allows people to abuse the system and get away with it with out any recompense sounds a lot like the 110 drug bill that is growing proof of bad thinking. about folks with low or no Self control with substances.

This Law is Wrong for the Following points

1. On how to deal with poor choices by those that need Drug interdiction help Not more free drugs
2. Having a population that sees it self above of the exisitng laws of the Land is just enabling them to keep doing what they are doing that is so toxic to them selves and the communities where they exist
3. This is not help for those that have no Homes, This is state mandated Giving of Tax payer Funds and resources to any or all with no consequences for use or conditions.
- 4 This will only make the situation far worse when they camp on the sidewalk in your town and leave trash,needles and human waste. We will not have any legal deal wit the situation.
5. You are setting this to be a very rough bad situation for all.
- 6 You are there in the State Housing Committee to be making good decision's for the voters that voted for you.

Do you think that any large number of the folks that this law will enable voted last election ?

what are the percentages of those that did vote. Compared to those that appose this unsound ideology of this Bill

Dont make the homeless housing situation worse.
