

Submitter: Matthew Scudder
On Behalf Of: Oak Harbor Freight Lines
Committee: Joint Committee On Transportation
Measure: HB2098

I have been involved in Transportation in the Greater Portland/Vancouver Metro area for more than 30 years and traffic through the I-5 corridor from the Marquam Bridge to the Interstate Bridge have continued to build to the point of gridlock every business day and some weekend days. The Rose Quarter and Interstate Bridge MUST be addressed and those projects must be funded. There needs to be a right sized Bridge to replace the current I-5 Bridge and we must increase the capacity and the size of traffic requirements so that these delays for Interstate commerce can be improved. Please support HB2098-2 and fund this project.
