

Submitter: Jenny Pompilio
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB2098

As a Portland resident, physician, public health advocate and mother, I believe that we need a seismically upgraded Interstate Bridge Replacement that incorporates options for biking, walking and public transit, rather than a several lane expansion that will consume most of our state's transportation budget. I support a phased funding plan that ensures accountability every step of the way. I am opposed to expanding the I-5 freeway through the Rose Quarter, which would only increase pollution in Portland's historically Black neighborhood.
