Committee: House Committee On Housing and Homelessness

Measure: HB3501

This a poorly written piece of legislation with vast consequences that the sponsors seem unable or unwilling to see for themselves. This is not going to help anything or anyone in this crisis beyond making the "Sponsors" feel good about themselves. Legislation like this is only going to drive more businesses and residents out of Oregon, trash our infrastructure, government property and parks costing the taxpayers millions more than we are already paying. Please stop trying to make this situation (completely created by Salem) a new industry for overpaid people (who have homes) at the taxpayers expense.

I strongly oppose this
