

Submitter: Kristen Bakouros
On Behalf Of: South Eliot Association
Committee: Joint Committee On Transportation
Measure: HB2098

I oppose HB 2098 but support amendment-3 dictating a right sized bridge project. Billions of dollars spent to expand freeways through NE Portland is egregiously oblivious to a history of pillaging a community that is hugely underserved by county, city, and state except for serving as a toxic portal for business transportation through way and city entertainment venue. For which, by the way, a portion of revenue generated by the Rose Quarter tourism dollars should be reserved.
