Committee: House Committee On Housing and Homelessness

Measure: HB3501

Please do not pass this anti-civilization bill that will only facilitate further destruction of our city. The homelessness lobby is a special interest like any other and does not represent the majority of people who just want a common sense approach to street camping. We can't take our once beautiful city for granted and let street campers take over any public space they choose. Cities only work if we all follow the rules.
