Measure: HB2098

I support replacing this bridge, but oppose HB 2098 -2, because this legislation as currently written jeopardizes a right-sized Bridge Replacement, right now. I support the -3 Amendment (and the policy recommendations offered by the Just Crossing Alliance) that ensures this replacement bridge project moves forward smoothly with a right-sized design, explicit pro-labor provisions, financial guardrails, and major investments in mass transit.

The money saved by not expanding the highway should go towards making more roads safe for vulnerable road users.
