

Submitter: Lee Bird  
On Behalf Of: Hard working citizens  
Committee: House Committee On Housing and Homelessness  
Measure: HB3501

This bill allows homeless to continue defecating in public spaces, continue dumping crack pipes, needles, and trash, build warming fires and harass citizens so others including home owners, business owners and their employees must be exposed to their hazards as well as clean up the homeless biological and hazardous trash.

Homeless have options for a better life. Homeless do not have a right to expose people to their hazards. Allowing this bill to pass will not solve any homeless problems.

Free handouts HAVE TO STOP. Oregon tax payers are tired of working hard to aid aimless individuals who are a menace to a civil society.

Build a barter system. No more free handouts.

People are tired of cleaning up and living next to the homeless trail of chaos.
